

AAC app cheat sheet

CoreWord 40 (Grid 3)

CoreWord: Language organization based on Brown's stages of language development. Available in CoreWord 6, CoreWord 20, and CoreWord 40. Features sentence prediction based on what a user selects, color coding, etc.

When in a Grid (Core Word 40 shown) use three lines in upper left to access drop down menu. Here you can choose Grid Explorer, Edit grid, Edit word list, Settings, Find word, Print, and Help

Chat: Access common conversational words/phrases; Includes folders of additional vocabulary for Emergency, Body & Health, Questions, In Class, About Me, and My WinSlate

Message Window: Composed message will appear here; press to speak

Yellow: Color code for pronouns and related people words

Purple: Color code for question words

White: Color code for little words

Green: Color code for action words

Blue: Color code for adjectives and descriptors

Squares with a bent corner link to another page

Pages: Additional vocabulary including fringe words organized by categories, Word Endings, question words, Extras & Controls, and more

Keyboard: Opens QWERTY keyboard with word/symbol prediction writing support
