

NEW, Splash of Color!

The ProSlate 10 custom color, Bubblegum!

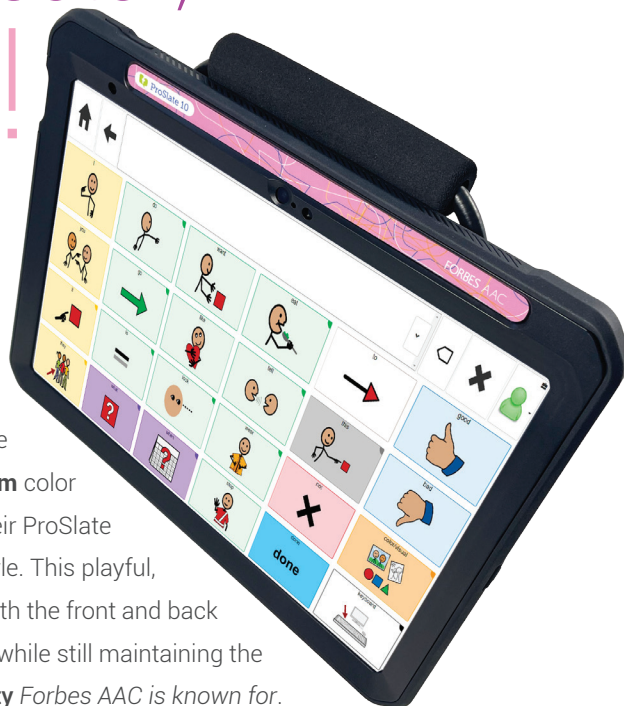

Forbes AAC is introducing a the Splash of Color! Users can express themselves with our fun Bubblegum color on their customized ProSlate 10, on the front and back.

Everyone needs a splash of color!

Say it with color!

Forbes AAC is excited to launch the **Splash of Color**, bringing a bold new way for users to showcase their individuality while using their communication device. With the introduction of the vibrant **Bubblegum** color option, users can now customize their ProSlate 10 to reflect their personality and style. This playful, eye-catching color is available on both the front and back of the device, ensuring it stands out while still maintaining the **durability, reliability** and **functionality** Forbes AAC is known for.

The Splash of Color goes beyond simple aesthetics—it gives users an additional way to make their AAC device truly their own. Communication is expressive, and now the device that supports it can be just as personal as the individuals who use it. Whether in the classroom, at work, or out in the community, the Bubblegum ProSlate 10 adds a fun pop of color that makes using the device a little more exciting while keeping all the advanced features and reliability users rely on every day.

Make sure to order a colorful
Bubblegum ProSlate 10
through your ATS!
